DETAILED ACTION

Election/Restrictions

Claims 22-24 and 26-30 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 39, 40 and 42-50, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on 5/29/2007 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Edwin Garlepp on November 5, 2008.

The application has been amended as follows:

Claim 29, line 12 is changed from "wherein said external gear is a counter gear, said rotating element is a ring gear" to --wherein said external **member** is a counter gear, said rotating element is **the** ring gear--. Emphasis added.

Allowable Subject Matter

Claims 22-24, 26-30, 39, 40 and 42-50 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding independent claim 22, the prior art of record fails to disclose or render obvious a planetary gear set comprising a rotating element, an external member provided eccentric with respect to the rotating element, a fixed element which is retained so as to be able to move without rotation in a predetermined radial direction. The prior art of record particularly fails to disclose or teach the above in combination with a permanent gap between the rotating element and a bearing therefore.

Regarding independent claim 28, The prior art of record fails to disclose or render obvious a planetary gear set comprising a rotating element, an external member provided eccentric with respect to the rotating element, a fixed element which is retained so as to be able to move without rotation in a predetermined radial direction. The prior art of record particularly fails to disclose or teach the above in combination with the fixed element being the carrier and the rotating element being the ring gear.

Regarding claim 29, the prior art of record fails to disclose or render obvious a planetary gear set comprising a rotating element, an external member provided eccentric with respect to the rotating element, a fixed element which is retained so as to be able to move without rotation in a predetermined radial direction. The prior art of record particularly fails to disclose or teach the above in combination with the rotating element being the ring gear.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
